

# Quality Policy

The Quality Policy of Yokohama R.P.Z. has been developed to achieve the company's objective: to manufacture a competitive product that meets requirements and expectations of our customers.

The product shall be manufactured in strict compliance with the technologies provided by YOKOHAMA RUBBER Co. LTD of Japan.

The key to achieving the Company's objective is commitment by the top management and process owners to implementing and maintaining quality management system with risk-based thinking with regard to internal and external issues that meets the requirements of international standards ISO 9001 and IATF16949.

1. We produce high-quality product that ensures customer safety and satisfaction. This enhances customer confidence and facilitates win-win relations with all the interested parties as well as promotes development and prosperity of the Company and society.
2. In order to implement the Quality Policy all the Company's processes set quality goals and arrange for their fulfillment.
3. All the Company's activities are aimed at ensuring that the product we manufacture meets the customer requirements as well as statutory and regulatory requirements.

With this Quality Policy, Yokohama R.P.Z. promotes positive environment to involve each and every employee into continuous improvement in order to enhance Company's effectiveness and efficiency.
